Education

Indian Institute of Information Technology & Management, Gwalior

B.Tech in Information Technology + MBA (CGPA : 7.42)

Nov 2022 — May 2027

Madhya Pradesh, India

Technical Skills

Languages: C++, Python, SQL, JavaScript, HTML, CSS

Web Technologies: React.js, Next.js, Node.js, Express.js, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, NeonDB

APIs & Auth: REST API, Plaid, Stripe, Clerk, JWT

Tools & Technologies: Git, GitHub, Docker, AWS, Prisma ORM, Vercel, Postman, CI/CD, Figma

Relevant Coursework: OOP, DBMS, Operating Systems, Computer Networks, Software Development, and Artificial Intelligence

Experience

Prashant Kumar LTD

Apr 2026 – Jul 2026

Startup, Data Engineer Intern

Remote

- Designed 3+ robust data pipelines to collect and process 10K+ daily business records across multiple sources for analytics.
- Streamlined data validation workflows, improving overall data quality by 25% and reducing preprocessing time by 15 hours weekly.
- Automated 5+ operational reporting workflows using Python, saving the analytics team 20+ hours of manual effort per month.
- Partnered with 4 key stakeholders to deliver actionable data insights, driving strategic decisions across 3 major company projects.

Chandra Store

Jan 2026 – Mar 2026

E-commerce Store, Data Analytics Intern

Remote

- Analyzed sales and revenue datasets containing 50K+ records, uncovering 3 key performance trends to boost Q1 revenue by 12%.
- Evaluated 5+ customer conversion funnels, identifying critical drop-offs that led to a 15% increase in user retention.
- Constructed 4 interactive dashboards to track inventory and marketing KPIs, reducing report generation turnaround time by 40%.
- Visualized operational data to pinpoint major bottlenecks, resulting in a 20% improvement in downstream supply chain efficiency.

Projects

Medi.Meet - Telemedicine Platform | Next.js, React.js, PostgreSQL, Prisma, Clerk, Vonage API | [🔗 Live](#)

January 2026

- Engineered a production-ready **telemedicine platform** using Next.js 15 and NeonDB PostgreSQL , enabling seamless doctor discovery and video consultations for 500+ active users.
- Integrated Vonage Video API and Clerk OAuth to manage role-based access , establishing secure, encrypted **peer-to-peer communication sessions** for 50+ concurrent users.
- Designed a scalable credit and monetization system using Prisma ORM , **automating secure payment processing** for 1000+ monthly appointment transactions.

Jadoo - AR/VR Real Estate Platform | React, Redux, Tailwind CSS, Express.js, MongoDB | [🔗 Live](#)

November 2025

- Engineered an immersive **AR/VR property exploration platform** using React and Express.js, enabling **500+ users** to take high-fidelity virtual home tours.
- Integrated an **AI-powered chatbot** and **text-to-speech engine** to deliver real-time property insights, boosting user engagement metrics by **30%**.
- Designed a responsive, **conversion-optimized frontend** with Tailwind CSS and secure payment gateways, elevating overall user satisfaction scores to **4.8/5** .

PadmeGPT - AI Chat Application | React, Node.js, Express.js, MongoDB, Gemini API, Context API | [🔗 Live](#)

July 2026

- Built a full-stack **AI chat application** comprising **2 modules** (React frontend and Express backend) with persistent conversation threads and MongoDB-based chat history storage.
- Developed and integrated **5+ RESTful API endpoints** for AI chat generation, thread creation, retrieval, deletion, and conversation persistence using Express.js and Mongoose.
- Implemented **6+ core features**, including multi-thread conversations, Markdown rendering, syntax-highlighted code blocks, typing animations, loading states, and real-time thread management using the Gemini API and React Context API.

Achievements

- Secured qualification in the GATE 2026 (Data Science AI) examination, ranking among the top 14761 of 69242+ national candidates.
- Contributed to **GirlScript Summer of Code 2024**, adding code and documentation to open-source repositories using Git, GitHub, and agile practices.

Positions of Responsibility & Leadership

- Managed and maintained automation tools and event management platforms as a **Technical Team Member** at **Uthaan Club**, ABV-IIITM Gwalior, optimizing internal workflows by **30%**.
- Team Lead** for Case Study Competition at **Infoutsav 2024**, coordinated a team of 6 members and managed event logistics that attracted **500+ registrations**.
